

## **Report on Open Enforcement Cases**

### **Purpose of the Report**

To inform members of the current situation regarding the enforcement caseload.

### **Recommendations**

- That the report be received
- That a further update be provided alongside the next quarterly monitoring report on cases where enforcement action has been authorised.

### **Background**

In accordance with previous Committee decisions, the format of this report shows existing and previous enforcement cases. The Table included in this report shows the total number of outstanding cases in one format (shown below).

In the last quarter a further 78 new cases have been reported, higher than the previous quarter (62). The current number of open cases is 253 (10 more than at the end of the last quarter). The number of open cases this quarter has therefore increased although it is noted by not as many as the increase in new cases for the quarter.

The issue of resources within enforcement has been identified as part of the Planning Peer Review's recommendations and it has been a new Senior Planning Enforcement Officer post has been agreed to address the current backlog which is too high. It is anticipated that progress will be made on the recruitment of this post in the near future.

Officers are seeking to continue to make progress in tackling the backlog. A number of the cases indicate in the Table below have associated pending planning applications awaiting determination (8 as at 2<sup>nd</sup> February 2016).

### **Conclusions**

It remains inevitable that some cases in the 'backlog' will remain open for some time because of their complexity.

Progress continues to be made in tackling older cases and there is still a significant body of work being undertaken behind the scenes, which has led to progress in several complex cases. Officers' enforcement workload is regularly reviewed to ensure continuity and case progression, and will continue to be undertaken.

### **Current Outstanding Enforcement Cases**

The Table below shows the current statistics in comparison to the previous Quarter.
