The Committee received a report to advise it of a joint memorandum of understanding for Environmental Health services for Staffordshire and Shropshire Authorities.

The Staffordshire and Shropshire Chief Environmental Health Officers Group had developed a memorandum of understanding to assist in providing resilience and resources for service delivery across the region

Members raised concerns regarding any detrimental affect that might be had on Newcastle Borough should staff be required to work elsewhere. Officers confirmed that any work carried out by Newcastle Borough Council Officers for other authorities would be above and beyond any normal contractual hours or that officers would be required to take annual leave and that any work carried out would be done on a reciprocal basis.

Members also requested clarification as to whether staff would be contractually required to work elsewhere when required or whether this would be done on a voluntary basis. Officers stated that clarification would need to be sought on this matter.

Members agreed that once clarification was received that it be shared with the Chair of the Committee to make the final decisions.

Resolved: (i) That clarification be sought regarding whether officers would be required to provide cover for other Local Authorities or as to whether this would be on a voluntary basis.

(ii) That once clarification was received from officers, authority be given to the Chair of the Committee regarding whether or not to endorse the memorandum of understanding and give authority to the Head of Environmental Health Services to sign and enter into the agreement.
