

LAND AT DODDLESPool, BETLEY reference 17/00186/207C2

The purpose of this report is to provide Members with an update on the progress of the works being undertaken at this site following the planning application for the retention and completion of a partially constructed agricultural track.

RECOMMENDATION

That the information be received.

Latest Information

Members will recall that a S73 variation of condition application, to vary condition 6 of the original planning permission, came before the planning committee at its meeting on the 27th April. Members resolved to permit the application to allow the applicant until the 1st November 2021 to complete the works. The application was subsequently permitted by decision notice on the 10th May 2021, reference 21/00286/FUL. The decision also varied condition 5 of the original permission so that no more than a further 6000 tonnes of appropriate and relevant inert material could be imported onto the site from 10th May 2021.

The works to complete the track have recommenced and your officers have recently carried out a site visit to check the progress of the works, along with compliance with the conditions.

Discussions with the Environment Agency are also necessary and a further update will be provided prior to the committee meeting.

Date Report Prepared – 10th June 2021
