

Stronger and Safer Communities Strategy Consultation

We have prepared a draft Stronger and Safer Communities Strategy looking towards the next five years (2012-17).

This Strategy seeks to set out the main issues and drivers underpinning the work being done and planned by the Borough Council and its key partners in pursuit of delivering stronger and safer communities.

The strategy is in draft form only at this stage and we would like your views on it as part of a wider consultation exercise.

Please respond by 10 August 2012
