

Report on Open Enforcement Cases

Purpose of the Report

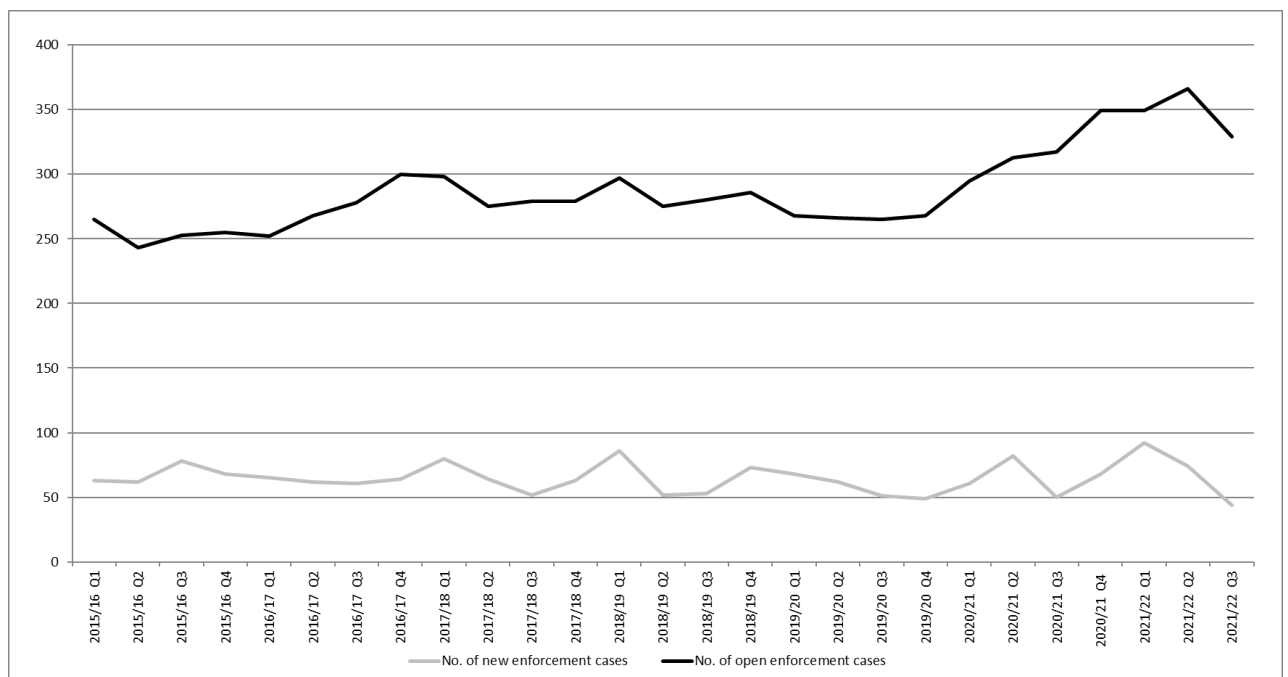

To inform members of the current situation regarding the enforcement caseload.

Recommendations

- That the report be received
- That a further update be provided alongside the next quarterly monitoring report on cases where enforcement action has been authorised.

This report will focus on of the numbers of new and open cases that have been received in the last quarter compared to the numbers in the previous quarter.

In the last quarter (October – December 2021) a further 44 new cases have been reported, fewer than the previous quarter (74). The number of open cases at the end of the last quarter was 329, fewer than the number of open cases in the previous quarter (366). Such figures are illustrated in the graph below.

A number of the cases have associated pending planning applications that are awaiting determination (19 as at 06 January 2022).

Date report prepared

07 February 2022
