Dear Ms Benson,

Re The Secret Garden.

I do not have too many concerns about the Secret Garden but I do feel that some matters need addressing:

1. People are sometimes noisy when leaving at night, about 11pm. and seem unaware that there are residents nearby  
Taxi drivers often use their hooters to alert customers of their arrival which is very irritating at night for residents trying to get to sleep.
2. There was one occasion in March when I was woken up about 2 am by a group of very noisy people leaving the venue - car doors were banging etc. I ring nearby rang the Police but didn't want to cause a fuss. I would be very concerned if this were to become a regular problem.
3. Occasionally, I can hear loud music but have not found this to be a major problem so far.
