

FIRST SUPPLEMENTARY REPORT
TO THE PLANNING COMMITTEE
15th AUGUST 2023

Agenda Item 6

5, BOGGS COTTAGE, KEELE

As set out in the main agenda report, it had been hoped that a site meeting would take place between your officers and Severn Trent Water (STW) to discuss the drainage for the site. Officers have made numerous attempts since April this year to arrange a site meeting but unfortunately STW have been very reluctant to take part in such a meeting. They did recently agree to a meeting but then disappointingly, they failed to alert Officers of their attendance on 3 August.

We have been advised that we will be sent a copy of their report at the earliest opportunity along with their further comments and a further update will then be provided to Members.
