

ACTION CATEGORIES

Action	Description
Tolerate	This action is appropriate when you judge that the control measures in place are sufficient to keep the risk at a tolerable level and there is no added value to doing more.
Treat	Some risks will need additional treatment to reduce their likelihood and/or impact to an acceptable level. This response is most likely where there have been further actions identified that are SMART and the risk rating has been identified as high (red) or in some cases medium (amber).
Transfer	Some risks can be transferred to an insurer or some other party eg legal liability, property and vehicles etc. Some service delivery risks can be transferred to a contractor by way of a contract or written agreement. However some risks cannot be transferred eg reputational risks.
Terminate	Sometimes a risk can be so serious that there is no option but to terminate the activity that is generating the risk.
